

**Hold** the key, aim, release. **Flick**: press and move at once.  
**Cancel**: release in the centre, Esc or right mouse button. **Far past the ring**: the other settings choice.  
**Mouse wheel** while you hold the key: the next / previous page of a dial with sets ("page 2 of 3").  
**Real marking menus: a quick flick runs the command - the dial is not even drawn.**
